SUMMER SCHOOL 2010
HEIDELBERG, GERMANY
JULY 25 – 29

KNOWLEDGE ON THE MOVE
Circulation, Domestication, and Transcultural Reconfigurations

Karl Jaspers Centre for Advanced Transcultural Studies, Heidelberg, Germany

The Summer School 2010 of the Cluster of Excellence “Asia and Europe” examines the multifaceted encounters between Asian and European knowledge since the early modern period.

How is knowledge transformed on its way through different regions, cultures, polities, and languages? What is lost, or gained, in translation? How do new categories, ideas, and practices react with local knowledge, and in what ways do they contribute to reshaping views of emic practices and learning? These and many other questions will be analysed and discussed in this summer school.

Applications accepted until May 31, 2010
